READING TRACKER BOOKMARKS

HOW TO PRINT & USE YOUR BOOKMARKS

Follow these steps to set up and use your planner.

1	PRINT: Print on cardstock for best results. If your printer prints double-sided, simply print the front and back bookmark pages double-sided. If your printer does not print double-sided, you'll need to print the front side, and then feed the printed page through the printer again to print the back side. Note that all printers print differently, so this may take some experimentation. For example, I had to flip my page upside down and backward for the two sides to match up. Have patience because they will match up! You just need to find the right way to feed the page into your printer.
2	CUT OUT: Cut out and use as is, and mark off minutes or the number of books read with a pen or pencil. Or, laminate the bookmarks and use a dry-erase marker so you can wipe off and reuse the bookmarks.
3	REUSE: Print as many copies of each bookmark as you need! You can reuse these year after year and reading challenge after reading challenge!
